## Independent Auditor's Report

### To the Members of the Canadian Wildlife Federation

#### <u>Opinion</u>

We have audited the non-consolidated financial statements of the Canadian Wildlife Federation (the "Federation"), which comprise the non-consolidated balance sheet as at February 28, 2023, and the non-consolidated statements of operations, changes in net assets and cash flows for the year then ended, and notes to the non-consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying non-consolidated financial statements present fairly, in all material respects, the non-consolidated financial position of the Federation as at February 28, 2023, and its non-consolidated results of operations and its non-consolidated cash flows for the year then ended, in accordance with Canadian Accounting Standards for Not-for-Profit Organizations.

#### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Non-Consolidated Financial Statements section of our report. We are independent of the Federation in accordance with the ethical requirements that are relevant to our audit of the non-consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other Matter

The Federation has also prepared consolidated financial statements for the year ended February 28, 2023 in accordance with Canadian Accounting Standards for Not-for-Profit Organizations using the permitted consolidation in lieu of non-consolidation with the alternative financial statement note disclosure option, on which we issued an unmodified opinion in our report dated July 27, 2023.

#### <u>Responsibilities of Management and Those Charged with Governance for the Non-Consolidated Financial</u> <u>Statements</u>

Management is responsible for the preparation and fair presentation of the non-consolidated financial statements in accordance with Canadian Accounting Standards for Not-for-Profit Organizations, and for such internal control as management determines is necessary to enable the preparation of non-consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the non-consolidated financial statements, management is responsible for assessing the Federation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Federation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Federation's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Non-Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the non-consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these non-consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the non-consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Federation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Federation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the non-consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Federation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the non-consolidated financial statements, including the disclosures, and whether the non-consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Nature of Organization	The Canadian Wildlife Federation (the "Federation") was continued under
	the Canada Not-for-profit Corporations Act (the "Act") effective August 21, 2014 as Canadian Wildlife Federation Fédération canadienne de la faune. In accordance with the Federation's Articles of Continuance ("Articles") under the Act, the purposes of the Federation are:
	<ul> <li>To perpetuate sustainable populations of wildlife so that they may be readily available for the use and enjoyment of current and future generations;</li> </ul>
	<ul> <li>To conduct, organize and participate in conservation projects designed to conserve wildlife and its habitat;</li> </ul>
	• To provide information, educate and increase the public's understanding of wildlife conservation through various activities, including healthful outdoor recreation, in order to enhance the public's ability to conserve wildlife and its habitat; and
	<ul> <li>To conduct research relating to wildlife, its habitat and the environment and to disseminate the results of such research.</li> </ul>
	The Federation's Articles establish one class of members. The Articles also require that any property remaining on liquidation of the Federation, after the discharge of its liabilities, shall be distributed to one or more qualified donees within the meaning of the Income Tax Act (Canada).
	The Federation is a registered charity and as such is exempt from income taxes and may issue official receipts for income tax purposes to donors.
	The Federation derives its funding from a broad base of supporters. The Federation publishes and distributes magazines focusing on wildlife issues which comprise a major part of its education program. It also publishes other educational and information material, and sells nature materials designed to foster an awareness and understanding of conservation generally. In addition, the Federation undertakes research on specific conservation issues of the day as well as fulfilling an advocacy role on behalf of Canadians concerned about wildlife and the environment.
Basis of Presentation	These financial statements have been prepared in accordance with Canadian Accounting Standards for Not-for-Profit Organizations ("ASNPO") which are part of Canadian generally accepted accounting principles and include the following significant accounting policies. As a permitted option under ASNPO, these financial statements are prepared on a non-consolidated basis (see Note 11 to these non-consolidated financial statements).

Basis of Presentation (continued)	The Federation has also prepared consolidated financial statements for the year ended February 28, 2023 in accordance with Canadian Accounting Standards for Not-for-Profit Organizations using the permitted consolidation in lieu of non-consolidation with the alternative financial statement note disclosure option. These consolidated financial statements are available on request.
Use of Estimates	The preparation of non-consolidated financial statements in accordance with Canadian Accounting Standards for Not-for-Profit Organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the non- consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from management's best estimates and assumptions as additional information becomes available in the future. These estimates and assumptions are reviewed periodically and, as adjustments become necessary, they are reported in the period in which they become known.
	Significant estimates include assumptions used in estimating the fair value of financial instruments; in establishing the useful lives and related amortization of tangible capital assets; in estimating the amount, amortization period and future benefit of deferred donor acquisition costs; in estimating provisions for accrued liabilities; in estimating the value of contributed services; and in estimating expense allocations.
Measurement Uncertainty	The amount of revenue recognized in relation to restricted contributions, specifically grants, is subject to material uncertainty. To estimate revenue to be recognized, management makes assumptions about the eligibility of related costs incurred and the expectation of total direct costs forecasted for the grant project periods. For projects that extend for multiple years, there is a greater level of uncertainty given the time period that needs to be forecasted and the timing of which final claims are submitted and reviewed. As a result, the Federation only recognizes the portions of these grants related to administration and overhead costs once the final claim has been submitted. As these claims are subject to review by the respective funders, measurement of the final approved contributions is uncertain until that time. Certain grants are also subject to future audits by the respective funders. Any request for repayment of contributions will be recorded in the year the funder provides notification to the Federation.
Financial Instruments	Financial instruments are financial assets or financial liabilities of the Federation where, in general, the Federation has the right to receive cash or another financial asset from another party or the Federation has the obligation to pay another party cash or other financial assets.

February	28,	2023
----------	-----	------

Financial Instruments	Measurement of arm's length financial instruments
(continued)	The Federation initially measures its arm's length financial instruments at fair value.
	The Federation subsequently measures arm's length financial instruments at amortized cost, except for investments in equity instruments that are quoted in an active market, which are measured at fair value. Changes in fair value are recognized in net income.
	Arm's length financial assets and financial liabilities measured at amortized cost include cash, certain cash equivalents and accounts receivable, and accounts payable and accrued liabilities. Financial assets measured at fair value include certain investments. There are no financial liabilities measured at fair value.
	Measurement of related party financial instruments
	The Federation initially measures its related party financial assets at fair value, cost or the exchange amount.
	The Federation subsequently measures related party financial assets quoted in an active market at fair value. All other related party financial assets are subsequently measured at cost or the exchange amount.
	When the related party financial instrument has repayment terms, cost is determined using the undiscounted cash flows of the instrument, excluding interest and dividend payments, less any impairment losses previously recognized. If the related party financial instrument does not have repayment terms, cost is determined using the exchange amount. The exchange amount is the amount of consideration paid or received as established and agreed to by the related parties.
	Related party financial assets and liabilities measured at the exchange amount are amounts due from/to related parties.
	Impairment
	Financial assets measured at amortized cost are tested for impairment, at the end of each year, to determine whether there are indicators that the asset may be impaired. The amount of the write-down, if any, is recognized in operations. The previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting the allowance account, provided it is no greater than the amount that had been previously reported as a reduction in the asset and it does not exceed original cost. The amount of the reversal is recognized in operations.

Financial Instruments (continued)	Transaction costs				
(commueu)	The Federation recognizes its transaction costs in operations in the period incurred. However, arm's length financial instruments that will not be subsequently measured at fair value are adjusted by the transaction costs that are directly attributable to their origination, issuance or assumption.				
Foreign Currency	Transactions during the year in a foreign currency have been converted in the accounts to Canadian dollars at the exchange rate in effect on the transaction date. All monetary assets in a foreign currency have been converted to Canadian dollars at the exchange rate in effect on the respective year-end date. Gains or losses resulting therefrom are included in the determination of the excess (deficiency) of revenue over expenses for the respective year.				
Revenue Recognition	The Federation follows the deferral method of accounting for contributions. Restricted contributions, including government contributions and other program funding, are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions, including donations and bequests, are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Endowment contributions are recognized as direct increases in net assets.				
	Grants and if applicable, donations, with respect to the acquisition of capital assets that will be amortized are deferred in the non-consolidated balance sheet and amortized to revenue in the non-consolidated statement of operations on the same basis as the related capital asset is amortized to expense in the non-consolidated statement of operations. Grants and if applicable, donations, with respect to the acquisition of capital assets that will not be amortized, which includes land held for development, are direct increases of net assets in the non-consolidated statement of changes in net assets.				
	Magazine publications fees are initially recorded as magazine publications obligations in the non-consolidated balance sheet and the revenue derived therefrom is recognized over the term of the related magazine subscription.				
	Fair value changes for investments are recognized in the non- consolidated statement of operations.				

Revenue Recognition (continued)	Restricted investment income is recognized as revenue in the year in which the related expenses are incurred. The balance of investment income or loss is recognized as revenue.
	Other revenue includes royalties, commissions, merchandise sales and other sundry sources. Other revenue is recognized when the transaction takes place to the extent that the amount to be received can be reasonably estimated and collection is reasonably assured.
Contributed Assets, Materials and Services	Contributed assets, materials and services which are used in the normal course of the Federation's operations and would otherwise have been purchased are recorded at their fair value at the date of contribution if their fair value can be reasonably estimated. Certain contributed assets and services are recognized in these non-consolidated financial statements.
	The Federation has recognized contributed (donated) land held for development.
	The Federation has recognized contributed services in relation to public service announcement ("PSA") distribution services received.
	In addition, the Board of Directors volunteer their time to assist the Federation in carrying out its service delivery activities. Because of the difficulty of determining the fair value of these services, they are not recognized in these non-consolidated financial statements.
Cash and Cash Equivalents	For purposes of the Federation's non-consolidated statement of cash flows, cash and cash equivalents are defined as bank balances; demand deposits; and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Normally only non-equity investments with a maturity of 90 days or less from their date of acquisition would be considered a cash equivalent, otherwise they would be considered an investing activity.
	In addition, bank overdrafts would only be considered a cash equivalent if they are repayable on demand and form an integral part of the Federation's cash management, whereby the bank balance fluctuates frequently from positive to overdrawn, otherwise they would be considered a financing activity.
Capital Assets	Tangible capital assets are recorded at cost. Donated tangible capital assets are recorded at fair value on the date of the contribution, when it can be reasonably determined.

Capital Assets	Amortization is based on the estimated u	useful life of the asset and is
(continued)	provided as follows: Building Building improvements	40 years straight-line basis Straight line basis over the

#### February 28, 2023

#### 1. Cash and Cash Equivalents

	 2023	2022		
Cash - operating and other accounts Cash - savings account	\$ 7,124 6,490	\$	9,298 6,310	
	\$ 13,614	\$	15,608	

Cash accounts are held in Canadian financial institutions and bear interest. The savings account bears interest on an escalating tiered basis which at year-end was an average of 2.7% (2022 - 0.78%).

At February 28, 2023, the cash and cash equivalents balance includes a U.S. dollar bank balance which equates to \$1,793,000 Canadian (2022 - \$2,000 Canadian).

#### Credit Facilities

The Federation has available an undrawn (2022 - undrawn) operating line of credit with Toronto Dominion bank in the amount of \$500,000 (2022 - \$500,000) at an interest rate of the bank's prime rate plus 0.25%. This line of credit is secured by a General Security Agreement providing the bank first charge on its personal property.

In addition the Federation has credit facilities in the form of corporate credit cards for which it has available to it a total of \$535,000 (2022 - \$535,000) of which the Federation had \$458,000 (2022 - \$431,000) in issued cards in circulation at year-end. Approximately \$119,000 (2022 - \$124,000) of these credit card facilities was utilized at year-end and is included in accounts payable and accrued liabilities.

2.	Accounts Receivable	 2023	2022				
	Operating Government remittances receivable	\$ 2,195 252	\$ 1,217 254				
		\$ 2,447	\$ 1,471				

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

#### 3. Investments

Investments are comprised of fixed income Canadian government, provincial and corporate bonds, other fixed income securities and Canadian preferred shares. The effective weighted interest rate of all of the investments at year-end is 3.21% (2022 - 2.75%). These investments are marketable securities and can be readily liquidated if necessary.

The carrying value of investments reflects their current market value. Throughout the 2023 fiscal year, net unrealized gains and losses resulting from the application of the financial instruments standards described in the summary of significant accounting policies amounted to a net unrealized loss of \$517,000 (2022 - \$334,000) which is recorded in the non-consolidated statement of operations.

The cumulative net unrealized loss at year-end is \$733,000 (2022 - \$216,000) which is presented as an internally restricted reserve in the non-consolidated balance sheet and the non-consolidated statement of changes in net assets.

During the prior year, the Federation was designated as the irrevocable beneficiary of a life insurance policy which has a cash surrender value of \$9,000 (2022 - \$9,000) as at February 28, 2023, which is included in investments. At year-end, the amount of insurance in force for this policy for which the Federation has been designated as the beneficiary totals \$500,000 (2022 - \$500,000).

#### 4. Environment Canada Agreement

The Federation has an agreement with Environment Canada whereby both organizations contribute funding to be used towards the development of a wildlife awareness initiative. Included in 2023 programs revenue is \$190,000 (2022 - \$171,000) of contributions from Environment Canada related to this agreement. The agreement expires March 31, 2023.

In a prior year, the Federation received a \$100,000 contribution from Environment Canada that was required to be set aside along with \$100,000 of the Federation's own funds, for a total of \$200,000 to be used at such time that further funding is no longer available. These restricted investments are in Canadian federal and provincial bonds, and corporate bond funds of \$200,000 (2022 - \$200,000) and at year-end bear interest at rates ranging from 3.13% to 4.59% (2022 - 0.11% to 2.99%). The interest earned on these restricted investments can be used as received to further fund this initiative.

	\$ 6,340	\$ 3,052	\$ 3,288	\$ 6,001	\$	2,726	\$ 3,275

During the 2018 fiscal year, the Federation received donations of land held for development with a total fair value of \$490,000, which was included as a direct increase in the Federation's investment in tangible capital assets for 2018. The use of the land is externally restricted.

### 6. Deferred Donor Acquisition Costs

	 2023	2022
Cost Less: Accumulated amortization	\$ 4,136 3,063	\$ 3,776 2,916
Net book value	\$ 1,073	\$ 860

Each year the cost and accumulated amortization of fully amortized acquisitions are removed from the Federation's records which for 2023 was \$1,335,000 (2022 - \$1,088,000).

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

#### 7. Contractual Obligations

In connection with its operations, the Federation regularly enters into agreements for the purchase of various supplies and services including the rental of equipment and facilities. Certain of these agreements extend beyond the end of the 2023 fiscal year. In the opinion of management, these agreements are in the normal course of the Federation's operations, are not abnormal in amount or nature and do not include a high degree of speculative risk.

### 8. Deferred Contributions Related to Tangible Capital Assets

The Federation occasionally receives funding in order to purchase specified tangible capital assets. During 2021 fiscal year, it received \$348,000 to assist with the building improvements and to purchase office equipment. During the 2023 fiscal year, the Federation received additional funding of \$60,000 to purchase computer equipment used for specific project activities. Funding received has been deferred and is being amortized to revenue over the useful life and on the same basis as the related capital assets purchased.

	 2023	2022
Balance, beginning of year Add: Tangible capital assets funding for the year Less: Amounts amortized to revenue for the year	\$ 282 60 (53)	\$ 315 - (33)
Balance, end of year	\$ 289	\$ 282

#### 9. Capital Disclosures

#### <u>Overall</u>

The Federation's capital is comprised of its net assets which at year-end totaled \$25,857,000 (2022 - \$22,422,000). Of the Federation's capital, \$2,999,000 (2022 - \$2,993,000) is internally restricted to fully finance the Federation's investment in its tangible capital assets, net of deferred contributions related to tangible capital assets, and \$1,073,000 (2022 - \$860,000) is internally restricted to fully finance the Federation's investment in its deferred donor acquisition costs. As set out in Note 4 to these non-consolidated financial statements, \$200,000 (2022 - \$200,000) of the Federation's capital is set aside for endowment purposes. At year-end, the Federation's other internally restricted net assets totaled \$21,318,000 (2022 - \$18,585,000) and its unrealized loss on investments totaled \$733,000 (2022 - \$216,000) as presented in the Federation's non-consolidated balance sheet and in accordance with the policy approved by the Federation's Executive Committee as further described herein.

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

### 9. Capital Disclosures (continued)

#### **Objectives**

The Federation's objectives when managing its other internally restricted net assets are to maintain its ability to:

- Operate efficiently;
- Meet its disbursement quota requirement as determined by the Canada Revenue Agency;
- Provide liquidity for growth opportunities;
- Have funds available for cyclical expenditures (i.e. expenditures not recurring annually);
- · Have funds available for unexpected increases in expenditures or decreases in revenue; and
- Have surplus funds from one fiscal year available to fund important, multi-year, strategic initiatives.

#### Other Internally Restricted Net Assets

The amounts allocated to these other internally restricted net assets are determined in reference to unrestricted net assets otherwise available for allocation. The purpose of each component of the Federation's other internally restricted net assets is as follows:

- The Capital Asset Replacement Reserve is to provide funds, if any, which are available to allow for replacement of capital assets;
- The Working Capital Reserve is to provide funds, if any, which are available should there be unforeseen disruptions in fundraising activities;
- The Programs Reserve is to provide for funds, if any, which are available to allow for the continuance of conservation programs; and
- The Designated Programs Reserve is to provide available surplus funds, if any, from one fiscal year to important, multi-year, strategic projects.

#### Net Unrealized Gain (Loss) on Investments

Since the Federation's investments are carried at fair value, all changes in fair value are recognized in operations as they occur. However, the Federation segregates the unrealized portion of the fair value changes existing at year-end of a \$733,000 (2022 - \$216,000) loss as a separate component of internally restricted net assets entitled net unrealized gain (loss) on investments. Therefore, the Federation's other internally restricted reserves are not impacted until the net gains or losses are realized.

### Other Amounts

Further, the Federation has magazine publications obligations related to magazine subscriptions which are deferred revenue at year-end totaling \$313,000 (2022 - \$351,000) and deferred program revenue of \$2,102,000 (2022 - \$6,733,000) for specific programs. These funds are available to finance the Federation's subsequent years' operations.

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

### 9. Capital Disclosures (continued)

#### Other Information

The Federation's financial risk management policies, as set out in Note 16 to these non-consolidated financial statements, have been established to assist the Federation in meeting the objectives set out herein by ensuring the Federation's capital invested in financial markets is not at risk and the Federation has sufficient liquidity. The Federation also has an undrawn operating lines of credit in the amount of \$500,000 (2022 - \$500,000) and other credit facilities as set out in Note 1 to these non-consolidated financial statements, which are available to provide liquidity. The Federation's Executive Committee does not establish quantitative return on capital criteria other than as set out in these financial risk management policies.

The Federation is not subject to externally imposed requirements on its capital except as set out in Note 4 to these non-consolidated financial statements with respect to its net assets restricted for endowment purposes and in Note 5 to these non-consolidated financial statements with respect to donated land that has external restrictions on its use.

#### Canadian Wildlife Foundation

In addition, as set out in Note 11 to these non-consolidated financial statements, the Federation controls the Canadian Wildlife Foundation (the "Foundation") which has not been consolidated in these financial statements. As such the net assets referred to in this note exclude the Foundation.

#### 10. Changes in Non-Cash Operating Balances

Changes in non-cash working capital balances consist of changes in the following accounts which represents a source (use) of cash from operating activities.

	 2023	2022
Accounts receivable Prepaid expenses Accounts payable and accrued liabilities - total Deferred program revenue Magazine publications obligations - current and non-current	\$ (976) 52 (114) (4,631) (40)	\$ (839) (561) 512 2,789 41
	\$ (5,709)	\$ 1,942

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

#### 11. Canadian Wildlife Foundation

#### Nature of Organization

The main purpose of the Canadian Wildlife Foundation (the "Foundation") is to receive and maintain funds for the use and benefit of the Federation or other qualified donees under the Income Tax Act (Canada). The Foundation also advances education by providing scholarships, bursaries, awards and other forms of financial assistance to students interested in wildlife and habitat conservation. The Foundation continued under the Canada Not-for-profit Corporations Act (the "Act") effective August 21, 2014 as Canadian Wildlife Foundation Fondation canadienne de la faune. In accordance with the Foundation's Articles of Continuance ("Articles") under the Act, the Foundation's purposes are as previously set out. The Foundation's Articles establish one class of members and its general operating bylaw number one requires that its members be the Board of Directors of the Federation. The Foundation is therefore controlled by the Federation. The Foundation's Articles also require that any property remaining on liquidation of the Foundation, after the discharge of its liabilities, shall be distributed to the Federation, or if the Federation ceases to be a registered charity, to one or more qualified donees within the meaning of the Income Tax Act (Canada).

The Foundation is a registered charity and as such, is exempt from income taxes and may issue income tax receipts to donors.

The Foundation has not been consolidated in these financial statements. Financial statements of the Foundation are available on request as are the Federation's consolidated financial statements.

#### Basis of Presentation

The Foundation's financial statements are prepared using Canadian Accounting Standards for Not-for-Profit Organizations but it uses the restricted fund method of accounting for contributions whereas the Federation uses the deferral method. Therefore, the Foundation's and Federation's financial statements are not directly comparable. Under the restricted fund method externally restricted amounts may be included in fund balances/net assets and in the respective restricted fund's results of operations. Under the deferral method these restricted amounts are included in liabilities and not included in the results of operations until these funds are expended, or directly in net assets if the restricted funds are endowments. A summary of the Foundation's financial statements including additional information on fund balances and related party transactions for the year ended February 28, 2023 with corresponding amounts for the year ended February 28, 2022 follows.

#### February 28, 2023

#### 11. Canadian Wildlife Foundation (continued)

#### Fund Balances

The Foundation's General Fund as at February 28, 2023 includes an internally restricted balance which represents its permanent capital in the amount of \$1,562,000 (2022 - \$1,510,000). The 2023 increase in permanent capital was \$52,000 (2022 - \$51,000) as a result of memorial donations received in conjunction with the Federation.

Certain of the Foundation's investments are carried at fair value. All changes in fair value are recognized in the Foundation's operations as they occur. The Foundation segregates the unrealized portion of the fair value changes existing at year-end as a separate component of fund balances.

#### Related Party Transactions

From time to time, the Federation and Foundation provide funding for each other's programs. During the year the Foundation provided funding to Federation in the amount of \$4,000 (2022 - \$527,000) for various programs. Any unexpended funding is included in deferred program revenue in the non-consolidated balance sheet to be used in a subsequent fiscal year. No funds were transferred in the 2022 fiscal year or the 2023 fiscal year.

Certain expenses of the Foundation are initially paid for by the Federation and reimbursed by the Foundation. The Federation also provides general and administrative services which have not been fully charged to the Foundation.

These transactions are in the normal course of operations and are measured at the exchange value, which is the actual amount of expenses incurred by the Federation on behalf of the Foundation.

Balances due to and from the Foundation that result from these transactions are interest free and are payable on demand. As at year-end there was a balance of \$47,000 (2022 - \$44,000) owed to the Foundation by the Federation included in accounts payable and accrued liabilities.

#### 12. Programs

Programs revenue includes government grants of \$14,230,000 (2022 - \$9,301,000).

#### 13. Magazine Publications

Magazine publications revenue includes government grants of \$226,000 (2022 - \$212,000).

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

#### 14. Fundraising Expenses

Fundraising expenses reported in the non-consolidated statement of operations of \$4,390,000 (2022 - \$3,999,000) are reported after the allocation of \$1,072,000 (2022 - \$1,186,000) to the conservation and education programs representing the cost of materials, brochures and mailings that are co-mailed with the Federation's direct mail campaigns.

#### 15. Contributed Services

The Federation builds and maintains a conservation ethic among Canadians through the development and broadcast of television advertisements ("PSA's"), which are produced in 30 and 60-second formats. These PSA's include information in regard to natural resources (such as wildlife, freshwater, oceans, forests, etc.) and activities people can do to prevent harm to them or to benefit them. Television stations contribute staff time and air time to schedule and play these PSA's, without which, the Federation would otherwise have had to purchase if it chose to provide this information to Canadians in this manner.

To value these contributed services, the Federation contracted a third-party media monitoring company to independently determine the fair value of these contributed services at the date of contribution. The fair value of the PSA distribution services provided for the year was \$1,096,000 (2022 - \$2,348,000), the benefit of which and offsetting corresponding conservation/ education programs expense are reflected in the Federation's non-consolidated statement of operations and non-consolidated schedule of expenses.

#### 16. Financial Instruments Risks and Concentrations

The Federation is exposed to various risks through its financial instruments. The following analysis provides a measure of the Federation's risk exposure and concentrations as at February 28, 2023.

#### Financial risk management

The Federation manages its investment portfolio based on the levels of its net assets set aside in its Capital Asset Replacement Reserve, Working Capital Reserve, Programs Reserve and Designated Programs Reserve. The Federation's policies stipulate certain 'bench marks' levels for these reserves.

• Cash reserves below the 'bench mark' are invested in short-term instruments. This achieves a balance between maximization of interest and liquidity of cash. A combination of money market and fixed income investments would typically be used in this situation.

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

#### 16. Financial Instruments Risks and Concentrations (continued)

#### Financial risk management (continued)

• Cash reserves above the 'bench mark' are invested in typically longer-term instruments. These instruments would weigh the permissible level of risk to the Federation's resources in relation to expected returns. At all times, the Federation would invest and manage these funds as would a prudent investor. A combination of income funds that provide capital preservation and capital appreciation would be used in this situation.

In addition, the Federation's cash is held in Canadian chartered banks.

The Federation is not involved in any hedging relationships and does not hold or use any derivative financial instruments for trading purposes.

#### Liquidity risk

Liquidity risk is the risk of being unable to generate sufficient cash and cash equivalents in a timely and cost effective manner to meet the Federation's spending requirements and obligations related to its deferred revenue and magazine publications obligations as well as meeting its financial liabilities in respect to its accounts payable and accrued liabilities, and its contractual obligations. The Federation mitigates liquidity risk by limiting its investments to financial instruments that can be readily liquidated if necessary.

#### Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Federation's main credit risks relate to its accounts receivable. The accounts receivable are managed and analyzed on an ongoing basis. The Federation is of the opinion that its exposure to bad debts is not significant.

#### <u>Market risk</u>

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

#### Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Federation is exposed to exchange risk due to transactions during the year in U.S. dollars, as well as its cash and cash equivalent balances as set out in Note 1 to these non-consolidated financial statements.

(Tabular amounts expressed in thousands of dollars)

#### February 28, 2023

### 16. Financial Instruments Risks and Concentrations (continued)

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Federation is exposed to interest rate risk on its fixed and variable interest rate financial instruments. The Federation holds floating-rate financial instruments being its cash and cash equivalents set out in Note 1 to these non-consolidated financial statements which would subject the Federation to a cash flow risk. Canadian government, provincial and corporate bonds and other fixed income investments held by the Federation, as set out in Note 3 to these non-consolidated financial statements, bear interest at fixed rates so the Federation is exposed to the risk resulting from interest rate fluctuations which is a fair value risk.

#### Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to an individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The maximum loss due to price risk is represented by the fair value of the investment portfolio as set out in Notes 3 and 4 to these non-consolidated financial statements respectively.

#### Investment credit risk

Investment credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Federation is exposed to investment credit risk through its investments in bonds and fixed income securities, as set out in Notes 3 and 4 to these non-consolidated financial statements respectively. Credit risk arising from these investments is limited to the carrying value of these assets.

#### Investment concentration risk

Investment concentration risk is the risk that an investment portfolio will have greater exposure due to a concentration in securities with similar characteristics or subject to similar economic, political or other conditions. Investment concentration risk is mitigated by ensuring that the portfolio limits geographic allocations as well as limits individual entity holdings.

### Changes in risks

There have been no significant changes in the Federation's risk exposures from its 2022 fiscal year.
