McMaster University

Statement of Management Responsibility

Management of the University is responsible for the preparation of the financial statements, the notes thereto and all other financial information contained in this Annual Financial Report.

Management has prepared the financial statements in accordance with Canadian accounting standards for not-for-profit organizations. Management believes the financial statements present fairly the University's financial position as at April 30, 2018 and the results of its operations, changes in net assets and its cash flows for the year ended April 30, 2018. In order to achieve the objective of fair presentation in all material respects, the use of reasonable estimates and judgements were employed. Additionally, management has ensured that financial information presented elsewhere in this Annual Financial Report has been prepared in a manner consistent with that in the financial statements.

In fulfilling its responsibilities and recognizing the limits inherent in all systems, management has developed and maintains a system of internal controls designed to provide reasonable assurance that University assets are safeguarded from loss and that the accounting records are a reliable basis for the preparation of financial statements.

Mercer (Canada) Limited has been retained by the University in order to provide an estimate of the University's current year position for pension and other employee future benefits. Management has provided the valuation actuary with the information necessary for the completion of the University's report and retains ultimate responsibility for the determination and estimation of the pension and other employee future benefits liabilities reported.

The Board of Governors carries out its responsibility for review of the financial statements and this Annual Financial Report principally through the Planning and Resources Committee and its Audit Committee. No members of the Audit Committee are officers or employees of the University. The Audit Committee meets regularly with management, as well as the internal auditors and the external auditors, to discuss the results of the audit examinations and financial reporting matters, and to satisfy itself that each party is properly discharging its responsibilities. The auditors have full access to the Audit Committee with and without the presence of management.

The financial statements for the year ended April 30, 2018 have been reported on by KPMG LLP, Chartered Professional Accountants, the auditors appointed by the Board of Governors. The Independent Auditors' Report outlines the scope of their audit and their opinion on the presentation of the information included in the financial statements.

INDEPENDENT AUDITORS' REPORT

To the Board of Governors of McMaster University

We have audited the accompanying financial statements of McMaster University, which comprise the statement of financial position as at April 30, 2018, and the statements of operations, changes in net assets and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of McMaster University as at April 30, 2018, and its results of operations and its cash flows for the year then ended in accordance Canadian accounting standards for not-for-profit organizations.

McMaster University (the "University"), which operates by authority of The McMaster University Act, 1976, is governed by a Board of Governors (the "Board") and Senate, the powers and responsibility of which are set out in the Act. The University is a comprehensive research institution offering a broad range of undergraduate, graduate and continuing education programs and degrees. The University is exempt from income taxes.

1. Significant accounting policies:

The financial statements have been prepared by management in accordance with Canadian accounting standards for not-for-profit organizations in Part III of the CPA Canada Handbook.

(a) Basis of presentation:

These financial statements include the accounts, transactions and operations for which the University has jurisdiction. They do not include the accounts, transactions and operations of the following entities which are independently governed and managed, and certain other related entities which carry out fundraising and other activities and are not material to these financial statements:

Independent entities:
- McMaster Divinity College
- McMaster Students Union, Inc.
- McMaster University Centre Incorporated
- McMaster Children's Centre, Inc.
- McMaster Association of Part-Time Students (MAPS)
- Graduate Students Association (GSA)

Other entities:
- The McMaster University Trust
- The McMaster University Hong Kong Foundation
- Friends of McMaster Incorporated

McMaster Innovation Park:

The investment in the related entity, McMaster Innovation Park ("Park") is accounted for by the equity method (note 4). Since the Trusts which form the Park have fiscal year ends of December 31st, the University records its share of the operating results effective on that date.

The following joint ventures are accounted for by using the equity method of accounting:

- Adiga Life Sciences Inc. ("ALS"):

  These financial statements include the University's 50% interest in ALS (note 4). ALS is a joint venture with an unrelated pharmaceutical research company to commercialize intellectual property. ALS has a fiscal year end of August 31st and the University records its share of the operating results on that date.

- Halton McMaster Family Health Centre:

  These financial statements include the University’s 50% contribution to the Halton McMaster Family Health Centre (note 4). This joint venture is a project with Joseph Brant Hospital involving the construction and establishment of a family health centre and hospital clinical and administration building. The joint venture is in the process of registering the constructed building as a leasehold condominium corporation.

OSCAR EMR:

OSCAR EMR ("OSCAR") is a not-for-profit technology/software company incorporated under the Ontario Corporations Act, controlled by McMaster University. OSCAR has a fiscal year end of December 31st. Financial information is disclosed in Note 4. OSCAR has not been consolidated in the University's financial statements.

1. Significant accounting policies (continued):

(b) Revenue recognition:

The University follows the deferral method of accounting for contributions which include donations and government grants. The principles under this method are summarized as follows:

- Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.
- Contributions externally restricted for purposes other than endowment and capital assets are deferred and recognized as revenue in the year in which the related expenses are recognized.
- Contributions externally restricted for capital asset purchases are deferred and amortized to operations on the same basis as the related capital asset.
- External endowment contributions and income preserved under the endowment capital protection policy (note 1(n)) are recognized as a direct increase in endowment net assets. Income earned from the investment thereof, to the extent it is allocated, is recorded as deferred contributions and recorded as revenue in the periods in which the related expenses are incurred.

Tuition fees which relate to academic terms or parts thereof occurring after April 30th are recorded as deferred revenue. Gifts-in-kind are recorded at their fair market value on receipt, or at nominal value when fair market value cannot be reasonably determined. Pledges from fundraising and other donations are recorded in the period in which they are collected. Ancillary sales and services revenue is recognized at point of sale or when the service has been provided.

(c) Financial instruments:

Financial instruments are recorded at fair value on initial recognition. Freestanding derivative instruments that are not in a qualifying hedging relationship and equity instruments that are quoted in an active market are subsequently measured at fair value. All other financial instruments are subsequently recorded at cost or amortized cost, unless management has elected to carry the instruments at fair value. The University has elected to carry investments in equity instruments, fixed income and other securities at fair value.

Transaction costs incurred on the acquisition of financial instruments measured subsequently at fair value are expensed as incurred. All other financial instruments are adjusted by transaction costs incurred on acquisition and financing costs, which are amortized using the straight-line method.

Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the University determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the University expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial impairment charge.

1. Significant accounting policies (continued):

(d) Derivative financial instruments:

The University is party to an interest rate swap agreement which is used to manage the exposure to fluctuations in interest rates. The University uses the accrual basis of accounting for hedges. Gains or losses realized on the settlement of the hedging item are deferred until the settlement of the hedged item.

At the inception of the hedging relationship, the University designates that hedge accounting will be applied. The University formally documents the hedging relationship between the hedging instruments and hedged item. At the inception of the hedge and throughout its term, the terms of the hedging item and hedged item are the same.

Hedge accounting is used only when the notional amount of the swap matches the principal amount of the hedged item, the fair value of the swap at the inception is $nil, the fixed rate is the same throughout the swap and the variable rate is based on the same index and includes the same or no adjustment and the debt instrument cannot be settled before maturity and the swap matures within two weeks of the maturity date of the debt.

(e) Investments:

Short-term investments are investments with a remaining term to maturity of one year or less and are intended to be converted to cash within one year. Short-term investments recorded at cost plus accrued income which together approximates fair value. Short-term investments includes cash and short-term investments held within pooled fund investments.

Long-term investments are carried at fair values. Changes in fair values are included in investment income.

Externally restricted investment income to the extent it is allocated is included with deferred contributions and recognized as revenue when the related expenses are incurred.

Unrestricted investment income is recognized as revenue during the period in which it is earned. Investment income from internal endowments is recorded as unrestricted revenue and transferred to internal endowments.

(f) Inventories:

Bookstore and nuclear reactor inventories are recorded at the lower of cost and net realizable value. Other inventories are recorded at cost which is a reasonable estimate of net realizable value.

(g) Capital assets:

Capital assets are recorded at cost, or if donated, at fair value on the date of receipt. Amortization is recorded on the straight-line basis at the following annual rates:

Buildings	2.5% to 10%
Decommissioning retirement costs	4%
Site improvements	5%
Library materials	20%
Computing systems	5% to 10%
Equipment, furnishings and vehicles	20%
Computing equipment	33.3%
Leasehold improvements	term of lease

Capital assets in progress are carried at cost, with no amortization recorded until such time as the assets are available for their intended use.

1. Significant accounting policies (continued):

(h) Intangible assets:

Intangible assets are comprised of emissions allowances which are recorded at fair market value. These intangible assets have an indefinite life and will be surrendered at the end of a pre-defined compliance period.

(i) Collections and works of art:

The McMaster Museum of Art has significant collections of works of art and coins. Donations of works of art amounted to $328,000 (2017 - $494,000) and are recorded in operations in the year of acquisition.

(j) Contributed services:

The University acknowledges the receipt of donated services. Because of the difficulty of determining their fair value, donated services are not recognized in the financial statements.

(k) Ancillary enterprises:

Ancillary enterprises are self-sustaining operations which fund their own replacements and renovations of equipment and facilities. Substantially all of the net operating results are transferred annually from unrestricted net assets to specific purpose net assets.

(l) Employee future benefits:

The University maintains defined benefit registered and non-registered pension plans, a retirement incentive program and group registered retirement savings plans. Non-pension post-retirement and post-employment benefits plans are also provided. Financial information is disclosed in Note 9.

- The University accrues its obligations for the defined benefit plans as the employees render the services necessary to earn the benefits. The current service cost and the finance cost for the year are charged to excess of revenues over expenses. The actuarial determination of the accrued benefit obligations for funded defined benefit plans uses the funding valuation method. This cost reflects management's estimates of investment yields, salary escalation, health care trend rates and other factors.
- The University has elected to accrue its obligations and related costs for unfunded plans on a basis consistent with funded plans.
- Remeasurement and other items are recognized as a direct increase (decrease) to net assets and are not reclassified to the statement of operations in subsequent periods. Remeasurement and other items comprise the aggregate of: the difference between the actual return on plan assets and the return calculated using the discount rate used to determine the defined benefit obligation; the actuarial gains and losses; the effect of any valuation allowance in the case of a net defined benefit asset; past service costs; and any gains and losses arising from settlements and curtailments.

The University also makes regular contributions to its Group Registered Retirement Savings Plan ("RRSP"), administered by a third party, on behalf of each eligible employee. Group RRSP contributions are charged to operations in the year made.

1. Significant accounting policies (continued):

(m) Net assets:

Net assets are classified as follows:

Unrestricted: operating funds available without specific restrictions.

Internally restricted:

- Employee future benefits: unfunded portion of pension and other non-pension retirement and post-employment benefits, net of funds set aside to meet estimated future obligations.
- Specific purpose: as approved by the Board, unexpended departmental budgets carried forward for subsequent expenditures and other portions of net assets reserved for specific purposes.

Equity in capital assets: funds invested in capital assets, exclusive of capital assets financed through long-term obligations or deferred capital contributions.

Internal endowments: unrestricted contributions including unspent investment income which have been restricted by action of the Board.

External endowments: external contributions, the principal of which is non-expendable pursuant to the restrictions by the donor, and income retained under the endowment capital protection policy.

(n) Endowment capital protection policy:

In order to protect the capital value of endowment investments, an endowment capital protection policy limits the amount of investment income allocated for spending to 4% and requires the reinvestment of excess income earned (interest, dividends, realized and unrealized capital gains, net of expenses).

Should endowment spending commitments exceed allocated income, amounts will be drawn from accumulated net investment income balances to fund deficiencies.

For endowments without sufficient accumulated investment income, temporary encroachment on capital is permitted. The encroached amounts will be recovered from future investment returns.

(o) Decommissioning obligation:

The fair value of a future asset retirement obligation is recognized when a legal obligation for the retirement of tangible long-lived assets is incurred and a reasonable estimate thereof can be determined. Concurrently, the associated decommissioning costs are capitalized as a part of the carrying amount of the asset and amortized over its remaining useful life. The liability and the related asset may be adjusted periodically due to changes in estimates until settlement of the obligation.

(p) Foreign currency translation:

The University accounts for transactions in foreign currencies at the exchange rates in effect at the time of the transactions. At year end, monetary assets and liabilities in foreign currencies are translated at year end exchange rates. Foreign exchange gains and losses on investments have been included in investment income.

(q) Use of estimates:

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Significant items subject to the use of management estimates and assumptions include the valuation of financial instruments, the carrying amount of capital assets, intangible assets, the valuation allowance for receivables, the valuation of pension and other employee future benefits, provisions for contingencies, and the decommissioning obligation. Actual results could differ from those estimates.

2. Investments:

Details of investments are as follows:

4. Other investments (continued):

(a) McMaster Innovation Park:

The First Longwood Innovation Trust and The Gore District Land Trust ("Park") were created by the University in 2006 to develop an entity for research, education, training, innovation and commercialization.

Details of the investment are as follows:

(thousands of dollars)	2018	2017
Balance, beginning of year	$ 15,427	$ 19,945
Equity earnings (loss)	1,807	(4,518)
Balance, end of year	$ 17,234	$ 15,427

The University is party to a Debt Service Deficiency Agreement as disclosed in Note 14(c). As part of the agreement, the University receives a fee of 0.5% on the monthly outstanding balance. For the year ended April 30, 2018, $107,506 (2017 - $102,282) in income was recorded by the University.

Included in rent expense for the University for the year ended April 30, 2018 is $3,490,872 (2017 - $2,486,261). Included in accounts receivable at April 30, 2018 is $1,085,390 (2017 - $398,134) receivable from the Park. Included in Note 14(f) are $6,701,822 (2017 - $5,349,086) in operating lease commitments with the Park.

During the year the University provided payroll services at a fee which amounted to $13,200 (2017 - $13,200).

Pertinent information from the Park's combined financial statements are as follows:

(thousands of dollars)	December 31, 2017	December 31, 2016

Total expenses	1,036	5,792
Net earnings (loss)	$ 346	$ (690)

(c) Halton McMaster Family Health Centre:

The investment in the Halton McMaster Family Health Centre represents the University's contribution of the base costs to construct the building.

(d) OSCAR EMR:

Financial information from OSCAR EMR's financial statements are as follows:

(thousands of dollars)	December 31, 2017	December 31, 2016
Total assets	$ 194	$ 105
Total liabilities	$ 1,754	$ 1,871

Net earnings (loss)	$ 206	$ (128)

5. Other assets:

Details of other assets are as follows:

(thousands of dollars)		2018		2017
Intangible assets	$	802	$	-
Loans receivable		428		683
	$	1,230	$	683

Intangible assets are comprised of emission allowances received through Ontario's Cap and Trade Program under the Climate Change Mitigation and Low-carbon Economy Act, 2016, which sets out a framework for the reduction in greenhouse gas ("GHG") emissions for the province of Ontario. The first compliance period for the Cap and Trade Program is January 1, 2017 to December 31, 2020. The University has received free GHG emission allowances in 2017 which are reasonably expected to exceed the University's GHG emissions during the year.

The University records the emissions allowances as intangible assets and deferred contributions at fair market value. The emissions allowances contributions are amortized into the statement of operations each period. The associated emissions expense is recorded each period in supplies and services. For the year ended April 30, 2018, $650,000 in amortization was included in operating grants and $650,000 in expenses was recorded in supplies and services. The emissions allowances will be surrendered at the end of the compliance period and used to settle the liability. At April 30, 2018, $650,000 is included in Accounts payable and accrued liabilities and $152,000 is included in Deferred contributions.

Details of loans receivable are as follows:

(thousands of dollars)		2018		2017
Graduate Students Association (a)	$	136	$	355
Other (b)		292		328
	$	428	$	683

(a) Graduate Students' Association:

The University has a loan receivable from Graduate Students' Association in the amount of $136,324 at April 30, 2018 (2017 - $354,735). The loan bears interest at a fixed rate of 6.75%, repaid in lump sum payments due and payable within sixty days of the closing of each of the trimestrial graduate registration periods.

(b) Other:

The University has a loan receivable from a lessee in the amount of $291,667 for lease fit out costs as at April 30, 2018 (2017 - $328,508). The loan bears interest at a rate of 0% per annum and is payable over 10 years beginning in February 2016.

Included in buildings is $87,980,000 (2017 - $70,104,000) representing buildings currently under construction and not available for use or subject to amortization. Included in computing systems and computing equipment is $843,000 (2017 - $1,791,000) representing software currently under development and not available for use or subject to amortization. Included in equipment, furnishings and vehicles is $nil (2017 - $742,000) representing equipment currently under development and not available for use or subject to amortization.

7. Accounts payable and accrued liabilities:

Included in accounts payable and accrued liabilities are government remittances payable, which includes amounts payable for payroll related taxes of $4,845,000 (2017 - $3,599,000).

8. Long-term obligations:

Details of long-term obligations are as follows:

(thousands of dollars)	Maturity	Interest rate	Current portion	Non-current portion	2018 Total outstanding	2017 Total outstanding
Long term debt:						
Bank term loan (a)	May 2033	floating	624	14,688	15,312	15,898

			$ 624	$ 267,810	$ 268,434	$ 268,504

Principal payments due in each of the following five years are as follows (in thousands of dollars):

2019	$ 624
2020	665
2021	709
2022	756
2023	805

(a) The bank term loan is unsecured and is being amortized over 30 years. The outstanding loan amount is subject to a 30 year interest rate swap agreement on an original notional principal of $20,954,441 with the banker whereby the University receives a floating interest rate while paying a fixed (10 year) rate of 6.384%.

(b) The debentures, which are unsecured, bear interest at 6.15% payable semi-annually in April and October. The proceeds of the issue are being used to finance various capital projects.

A voluntary sinking fund has been established to provide funds to repay the debenture principal upon maturity. Increases to the sinking fund are charged to operations. The value of the fund at April 30, 2018 amounted to $17,893,000 (2017 - $16,992,000).

(c) The debentures, which are unsecured, bear interest at 4.105% payable semi-annually in May and November. The proceeds of the issue are being used to finance various capital projects.

A voluntary sinking fund has been established to provide funds to repay the debenture principal upon maturity. Increases to the sinking fund are charged to operations. The value of the fund at April 30, 2018 amounted to $11,981,000 (2017 - $11,374,000).

(d) It is expected that the nuclear reactor will be decommissioned at some undeterminable future date. Under an agreement with the Canadian Nuclear Safety Commission (CNSC), a trust fund has been established which requires annual funding contributions to provide for the decommissioning costs.

As at April 30, 2018, the fair value of the trust funds amounted to $13,330,000 (2017 - $12,539,000). The net present value of the estimated cost for decommissioning, at April 30, 2018 is $12,347,000 (2017 - $11,767,000) using risk free rates ranging between 4.0% and 5.1%.

During fiscal 2015, an additional decommissioning obligation related to non-reactor radioactive materials was recognized. The obligation was recognized based on an estimated useful life of 25 years and using a risk free rate of 4.0%. At April 30, 2018, the amount of the obligation was $775,000 (2017 - $839,000), a decrease of $64,000 to reflect changes in the number of non-reactor radioactive materials in service. The CNSC does not require that a trust fund be established to satisfy this obligation.

8. Long-term obligations (continued):

(e) The University has in place an interest rate swap agreement for 30 years which expires in 2033. Under the terms of the agreement, the University agrees to receive a floating interest rate on the loan (note 8(a)) while paying a fixed rate of 6.384%. The use of the agreement effectively enables the University to convert the floating rate interest obligation of the loan into a fixed rate obligation and thus manage its exposure to interest rate risk.

The notional and fair values of the interest rate swap agreement is as follows:

(thousands of dollars)	2018		2017	
	Notional value	Fair value	Notional value	Fair value
30-year interest rate swap	$ 15,312	$ (4,441)	$ 15,898	$ (6,269)

The change in fair value of the swap for the year ended April 30, 2018 is $1,828,000 (2017 - $683,000).

9. Employee future benefits:

The University maintains three contributory defined benefit registered pension plans, one for full-time hourly employees and two for salaried employees. The plan for hourly employees was closed to new members on March 15, 2010, one of the salaried plans was closed to new members on January 14, 2003 and the other salaried plan remains open to new members. The defined benefit registered pension plans provide a pension for life based on the best average earnings of the member and years of pensionable service in the plan. The University also maintains both contributory defined contribution and non-contributory defined benefit supplementary non-registered pension plans, a retirement incentive program and a group RRSP.

The University additionally maintains a non-pension post-retirement benefit plan which provides health, dental and life insurance benefits to retirees, a post-employment benefit plan which provides health benefits to employees on long-term disability and a special retirement arrangement for some senior administrators.

The accrued benefit obligations as determined by independent actuaries and the fair values of the plans' assets are recorded as at April 30th.

(h) For measurement purposes, a 5.25% annual rate of increase in per capita medical cost was assumed for 2016, grading down to 4.0% per annum in and after 2030. For per capita dental costs, an annual rate of increase of 4.0% per annum was assumed.

(i) Details of actuarial valuation completion for funding purposes and filing dates of the respective plans are as follows:

- hourly rated employee pensions: completed as at July, 2016, the next required filing date is July, 2019.
- salaried employees pensions (Plan 2000): completed as at July, 2017, the next required filing date is July, 2020.
- other (post-retirement benefit): completed as at March 31, 2016; the next valuation date is March 31, 2019.
- other (post-employment and retirement allowance): completed as at April 30, 2018.

The results of valuations not completed as of April 2018, have been extrapolated to April 30, 2018, which is the measurement date used to determine the accrued benefit obligation for all employee future benefit plans.

(j) In 2008, the University created a group RRSP for certain types of new employees. University and employees' contributions in 2018 amounted to $2,870,000 (2017 - $2,469,000).

(k) The University has internal reserves set aside in the amount of $83,202,000 (2017 - $73,640,000) for the accrued benefit obligation of the non-pension post-retirement benefit plan.

10. Deferred contributions:

(a) Deferred for future expenses:

Deferred contributions represent external contributions restricted for research and trust expenses to be incurred in subsequent fiscal years. Details of the change in deferred contributions are as follows:

(thousands of dollars)	2018	2017 (restated - note 21)
Balance, beginning of year	$ 358,035	$ 353,923

Other restricted funds	24,864	23,421
	$ 359,191	$ 358,035

(b) Deferred capital contributions:

Deferred capital contributions represent the unamortized amount of donations and grants received for the purchase of capital assets. Unspent deferred capital contributions are included in deferred contributions for future expenses until such time as capital expenditures are incurred. Details of the change in the unamortized deferred capital contributions are as follows:

(thousands of dollars)	2018	2017 (restated - note 21)
Balance, beginning of year	$ 490,828	$ 462,144

13. Endowments:

(a) Internal:

Details of the change in internally restricted endowments are as follows:

(thousands of dollars)	2018	2017
Balance, beginning of year	$ 143,422	$ 127,872
Donations	-	78
Investment income	6,925	19,741
Net transfers and expenses	(4,570)	(4,269)
Balance, end of year	$ 145,777	$ 143,422

Included in internal endowments is an amount of $67,854,000 (2017 - $66,981,000) reflecting the legacy of Dr. H. L. Hooker and $62,219,000 (2017 - $60,922,000) related to the Salaried Pension Plan surplus withdrawal from 2003. Income generated from this capital is used to fund programs that enrich the academic achievements of the University as approved annually by the Board.

(b) External:

Details of the change in externally restricted endowments are as follows:

(thousands of dollars)	2018	2017
Balance, beginning of year	$ 466,878	$ 413,181
External contributions	13,739	8,898
Income retained - capital protection policy	2,718	44,799
Balance, end of year	$ 483,335	$ 466,878

Investment income on external endowments amounted to $19,035,000 (2017 - $60,202,000). In accordance with the endowment capital protection policy, this income less the amount made available for spending of $16,550,000 (2017 - $15,607,000), plus net transfers of $233,000 (2017 - $204,000) were added to endowment net assets. The amount made available for spending is recorded as investment income in the statement of operations.

14. Commitments and contingencies:

(a) Canadian Universities Reciprocal Insurance Exchange:

The University is a member of the Canadian Universities Reciprocal Insurance Exchange "CURIE", a self-insurance cooperative comprised of approximately sixty Canadian universities and colleges. CURIE insures property damage, general liability and errors and omissions risks. If premiums collected are insufficient to cover expenses and claims, the University may be requested to pay additional amounts.

14. Commitments and contingencies (continued):

(b) Legal claims:

The University is involved in certain legal matters and litigation in the normal course of operations, the outcomes of which are not presently determinable. The loss, if any, from these contingencies will be accounted for in the periods in which the matters are determined. Management is of the opinion that these matters are mitigated by adequate insurance coverage.

On October 12, 2007, the University was served with a Class Action Claim ("Claim") on behalf of certain retired and active Clinical Faculty members who were, or are, members of the University's defined benefit pension plans for salaried employees ("Plan") during the period from 1973 to-date. The Ontario Superior Court of Justice ("Court") approved a settlement agreement between the University and the representative plaintiffs effective May 15th, 2015. A provision consistent with the Court approved settlement agreement is recorded in the financial statements. The University has made the majority of payments to class members who executed a full and final release in favour of the University.

(c) Debt Service Deficiency Agreement:

The University has guaranteed the scheduled principal and interest payments, up to $23 million of long-term debt extended to The First Longwood Innovation Trust, in the event of default. The total amount of debt outstanding and subject to the Debt Service Deficiency Agreement at April 30, 2018 was $21.0 million (2017 - $21.9 million). Since the agreement may expire without being drawn upon, it does not necessarily represent future cash requirements. As of April 30, 2018, no obligation exists under the agreement and as a result, no amount has been recognized as a liability on the statement of financial position.

(d) Capital commitments:

The estimated cost to complete approved major capital and system projects amounted to $204.5 million at April 30, 2018 (2017 - $167.9 million). The major commitments are as follows: The Peter George Centre for Living and Learning ($86.5 million), Arthur Bourns Building Retrofit ($22.4 million), Commercialization of Research ($20.0 million), and Combined Heat and Power Plant ($4.8 million).

(e) Energy Retrofit Agreement:

In 2007, the University signed a multi-year agreement with Hamilton Health Sciences Corporation ("HHSC") when HHSC undertook a significant energy retrofit project at the McMaster University Medical Centre. Under the terms of the agreement, the University is required to pay approximately 40% of the related costs of the retrofit project. At April 30, 2018, the University's remaining share of the costs are estimated to be $10.4 million (2017 - $11.4 million). Payments to HHSC will take place up to 2029.

14. Commitments and contingencies (continued):

(f) Leases:

The University has entered into operating lease agreements for office equipment and buildings. The total annual minimum lease payments in each of the next five years are approximately as follows:

(thousands of dollars)

(g) David Braley Health Sciences Centre (formerly McMaster Health Campus):

The University entered into a Conditional Financial Contribution Agreement with the City of Hamilton which requires the University to meet certain milestones in order to receive grant installments totaling $20 million by 2020, of which $19 million has been received.

(h) McMaster Main Street Student Residence:

The University is working with a private developer to provide a new up to 1,500 bed undergraduate residence that includes learning, research and additional ancillary university spaces along Main Street West on lands McMaster owns or will own by September 2018. The project land once developed will be an extension of main campus. At April 30, 2018, $14.2 million is recorded in land. The project is expected to be completed in two phases with the first phase expected to be completed by 2020/21. The residence will be managed, operated and used by the University to suppor its mission.

(i) Grad Residence and Parking Garage:

The University is working with a private developer to provide a new 559 bed graduate residence and a 312 space parking garage in downtown Hamilton. The residence project is designed to be a public-private partnership project, for which the University is in ongoing negotiations. The parking garage project will be owned solely by the University.

(j) Research Commercialization:

In June 2017 the Board approved an investment of up to $25 million in facilities at MIP, including up to $5 million in in-kind rental space and rent subsidies over the next five years in exchange for leases and other financial arrangements, which may include equity interest in one or more of the entities renting the space. In June 2018 the Board approved ar additional investment of up to $25 million. These facilities investments are in support of research commercialization opportunities for early stage commercialization and established businesses.

16. Related party transactions:

In addition to certain transactions and balances disclosed in note 4, the University received funds of approximately $217,000 (2017 - $257,000) during the year from fundraising entities.

17. Financial risks and concentration of credit risk:

(a) Liquidity risk:

Liquidity risk is the risk that the University will be unable to fulfill its obligations on a timely basis or at a reasonable cost. In managing liquidity risk, the University focuses on liquid resources available for operations. The University's objective is to have sufficient liquid resources to continue operating even if adverse financial events were to occur and to provide it with the flexibility to take advantage of opportunities that will advance its mission. The need for sufficient liquid resources is considered in the preparation of its annual and capital budgets and by monitoring and forecasting of cash flows. The University maintains a line of credit of $15 million which can be used in the event of a short-term deficiency in cash flow. The line of credit was not used in 2018. In addition, the University could issue unsecured debentures or enter into other long-term debt to assist in the financing of capital projects. There has been no change to the risk exposure from 2017.

(b) Credit risk:

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in a financial loss. The University is exposed to credit risk with respect to accounts receivable. The University assesses, on a continuous basis, accounts receivable and provides for any amounts that are not collectible in the allowance for doubtful accounts (note 3).

(c) Interest rate risk:

The University is exposed to interest rate risk on its fixed interest rate financial instruments. Further details about the fixed rate investments are included in note 2 and the long-term obligations are included in note 8.

(d) Currency risk:

Investments that trade in foreign markets are exposed to currency risk as the price in local terms on the foreign stock exchange is converted to Canadian dollars to determine fair value. The University's overall currency positions are monitored on a daily basis by the portfolio manager. There has been no material change to the risk exposure from 2017.

18. Ontario student opportunity trust fund:

External endowments include grants for funding student aid provided by the Government of Ontario's Student Opportunity Trust Fund matching program. Under the program, the Province has matched qualifying external endowment donations received with equal contributions.

The market value of the endowment as at April 30, 2018 was $51,903,000 (2017 - $51,124,000).

20. Pledges:

Outstanding but unrecorded pledges for donations and other fund raising amounted to approximately $85,000,000 (2017 - $95,000,000).

21. Prior period adjustment:

In the prior year, funding received from the Ministry of Advanced Education and Skills Development for the purchase of capital assets was recorded as an unrestricted contribution. It was subsequently determined the funding received was restricted for capital purposes. Correction of this error resulted in an increase in deferred contributions for future expenses of $12,825,000, an increase in deferred capital contributions of $4,332,000, a decrease in internally restricted net assets of $12,825,000 and a decrease in equity in capital assets of $4,332,000 as at April 30, 2017. In addition, for the year ended April 30, 2017, there was a decrease in donations and other grants of $17,645,000 and an increase in amortization of deferred capital contributions of $488,000, resulting in an overall decrease in excess of revenues over expenses of $17,157,000.

22. Comparative figures:

Certain comparative figures for 2017 have been reclassified to conform with the financial statement presentation adopted in the current year.
